I completed my intermediate education in Computer Science (ICS).

Bachelors

University of Management and Technology

2020-2024

I earned my Bachelor's degree in Computer Science in July 2024.

PROFILE

I'm Haris Hassan, a 22-year-old Frontend Developer with a Bachelor's degree in Computer Science. Passionate about development, I specialize in React.js, Tailwind CSS, and Bootstrap. My skills include utilizing React Redux Toolkit for state management and React Router DOM for smooth navigation. I excel at transforming design concepts into responsive, high-quality user interfaces that balance functionality and aesthetics. With strong problem-solving abilities and a collaborative mindset, I contribute effectively to projects and strive for exceptional results. Committed to continuous learning and growth, I am dedicated to leveraging modern technologies to build engaging web applications.

Courses / Certifications

- meta advance react certificate
- Google Ads certificate

Technicial Skills

- Frontend Technologies: React.js, HTML5, CSS3, JavaScript (ES6+)
- CSS Frameworks: Tailwind CSS, Bootstrap
- State Management: React Redux Toolkit
- Routing: React Router DOM
